## □ Introduction:

Gulf Cables and Electrical Industries Group Co. K.S.C.P (GC) was established in 1975 with objective of meeting growing local and export markets requirements, it owns two factories one located in Kuwait the other in Jordan. Our Vision is to be the leader of Gulf and Middle East region in manufacturing and supplying Cables and Conductors. Through continuous improvements driven by the integrity, teamwork and innovation, we are committed to provide such a Quality that:

- Our customers will receive superior value
- Our shareholders will receive ever exceeding returns on their investments
- Our business partners will share our success
- Our employees will prosper

Our products are designed and manufactured to meet the needs of the Local, regional and International markets. All our products meet the respective world standards.

We handle all available means for exporting products - land, marine and air.

We are also equipped to meet all export requirements and formalities in the local Arab markets, including Saudi Arabia, United Arab Emirates, Oman, Bahrain, Jordan , Iraq and MENA. Opportunities to Export to Syria, Lebanon, Yemen and other countries worldwide will also be available soon.

We have developed and established communication channels with our customers through which, we constantly get updates and feedbacks on their stated / implied needs and problems. Based on this information, we have devised new modalities to provide better service to our valued customers. Thus, we not only provide Quality Products, but also offer a host of related services before and after the sale.

## □ Products:

Medium Voltage Power Cables up to 19/33(36) KV  
Low Voltage Power Cables up to 600/1000V  
Control Cables 600/1000V  
Bare Conductors for Overhead Lines  
Earthing Conductors  
Fire resistant Cables  
PVC or XLPE Insulated Conductors  
Domestic Applications / Internal Wiring  
LSZH Cables & Wires  
Lead Sheathed Cables  
Enamelled Wires  
Telephone, communication & Instrumentation Cables

## □ Quality:

Quality has always been our top priority and to meet customer's expectation has been our prime objective; the very basis on which we earned the confidence of our clientele. It is this concern and commitment, rather than just sell of product, has given us a distinct image and competitive advantage.

## □ Certificates:

DOMESTIC APPLICATIONS / INTERNAL WIRING

• PVC insulated non sheathed single core wires	BS 6004 / BS 6231
• PVC insulated PVC sheathed flexible cords	BS 6500 / BS 6141 / BS 6004
• PVC insulated PVC sheathed twin flat cables and cords with Or Without circuit protective conductors (ECC)	BS 6004 / Client specification

General Note:

- The tabulations on subsequent pages furnish overall dimensions, weight, drum dimensions etc.. Please note that these are "Approximate" values and subject to manufacturing tolerance. We reserve the right to change the data because of product development and / or changes in standard without notice.
- Although Gulf Cables has made every reasonable effort to ensure its accuracy, the information contained herein is subject to error of omission and to change without notice. In no event will Gulf Cable be liable for any damages whatsoever, arising in connection with the information described.

## □ Quality & Integrated Management System

Quality has always been our top priority and to meet customer's expectation has been our prim objective; the very basis on which we earned the confidence of our clientele. It is this concern and commitment, rather than just sell of product, has given us a distinct image and competitive advantage.

Since 1997, we have Quality Assurance System to ISO:9001. The System has been certified by TUV-Nord, as well as BASEC. The salient features of this system include:

- Well defined and documented system comprising of System manual, Operating procedures, work instructions, Quality Assurance plans, Material specifications, work specifications, traceability system, Design guidelines.
- Sound vender development and approval system
- Systematic scrutiny of customer requirements and internal communication to integrate the same into product
- Thorough incoming material inspection
- Round the clock process checks at defined points and frequencies
- 100% testing before any product leaves our premises
- Well established customer interface

Our Jordan Plant management system is certified according to requirements of ISO 9001:2015 by SGS.

## □ Environmental Management System

We at GC recognize that Environmental Issues have become critical challenge globally. We are committed to contributing towards "Leaving a beautiful planet as a legacy to future generations".

For achieving this, we believe that we need to work in harmony with the nature; recognize the environmental impact related to our business activities & products and undertake protection of environment through technologically and economically feasible goals within our scope.

To pursue this in year 2007, we have implemented Environmental Management System satisfying requirements of ISO:14001. The System has been certified by TUV-Nord.

## Occupational Health & Safety Management System

We at GC recognize that way to greater sustainability is through better Health measures for employees and better Safety measures for protecting men, machines, materials and environment.

For achieving this, we believe that we need to provide a healthy and safe working

habitat at our facility and take adequate steps to prevent accidents and injury arising from the course of our activities, by minimizing, so far as is reasonably practicable, the causes of hazards inherent in the working environment.

To pursue this in year 2007, we have implemented Occupational Health & Safety Management System satisfying requirements of OHSAS:18001 and continue to meet the upgraded standard ISO 45001. The System has been certified by TUV-Nord.

In order to more effectively and efficiently deliver our organizations objectives, from managing employees needs to monitoring risks and hazards, from reducing inefficiencies and maximizing resources, an Integrated Management System (IMS) approach have been adopted.

Our integrated Management system includes all three ISO Standards requirements of ISO 9001, ISO 14001 & ISO 45001. Established IMS policy is made aware to employees at all levels within GC and available to the interested parties/stake holders in GC website.

\* Circular solid conductors (Class 1) and 300/500V.

\*\* Circular solid conductors (Class 1).

All other conductors Circular stranded or circular stranded compacted (Class 2).

Above cables are insulated with either PVC Type 5 Heat Resisting 85°C or TI1 compound.

Cables rated 450/750V are Suitable for Voltages up to 1000V a.c or up to 750V to earth d.c.

Cables conform to BS 6004.
